

An Exelon Company

Update 10/15/2021

PECO Reliability Improvements

PECO has informed us of enhancements to their infrastructure and reliability in Haverford Township. Beginning on or about October 28, 2021, PECO will upgrade existing lower voltage electric circuits to higher voltages that will better meet customer needs. To accommodate their work, PECO will block one lane of traffic in the westbound direction of West Chester Pike in work areas between Stanton Road and Gilmore Road, from 9 AM to 3 PM weekdays. PECO expects to complete this project in approximately 6 to 8 weeks.

For additional information about this PECO project, please call PECO at 484-685-7603.
